

# Next.js 심화 5

## 1 Error Handling

## Performance

Image 관련 warning

(Image elements do not have explicit width and height)

(<https://github.com/vercel/next.js/issues/35091>)

(<https://github.com/GoogleChrome/lighthouse/pull/13737>)

## Error Handling

(<https://nextjs.org/docs/advanced-features/error-handling>)

- Handling Errors in Development - Overlay
- Handling Server Errors - Custom Error Page
- Handling Client Errors - Error Boundaries

yarn dev 로 실행한 경우

overlay로 Error 지점을 노출해준다.

## Error Page

(<https://nextjs.org/docs/advanced-features/custom-error-page>)

- 404.js
- \_error.js
- import Error from 'next/error'

## 정리

### Error Handling
